Creating a budget

Before getting started on a project, it's a good idea to create a budget to keep track of expenses.

A budget is a working document that you update as you go.

It can be as simple as creating a table with two columns:

What | Expected cost

Create a list over all expected expenses for the project. This might be:

- rent for facilities
- fee or gift for a contributor
- food and drinks for guests
- equipment (e.g. fabric for a banner, paint)
- travel costs to the event

Sum all expected expenses

What	Expected cost
Food	1500
Paint	300
Banner	200
Sum	2000

Remember:

Groups can use up to 3000 kr annually on Amnesty's work without applying in advance. If your group keeps an overview over how much you have used throughout the year, you know how much of that amount is left.

In the menu at the top, choose "Mine grupper"

Scroll down, and choose "søk støtte"
